Crew Van

the solution for work and leisure

By fitting a second seat row with an integrated partition wall it is possible to convert your Traffic panel van into a Crew Van at all times. The perfect solution for the combined transport of people and material.

Powerfull, Stylish and Practical

Obviously the Crew Cab applies to the European safety standard. All seats are provided with 3-point inertia-reel safety belts and tiltable and in height adjustable head restraints.

The partition wall is designed to meet the BS/ISO27956 standard for load shifting protection.

Also the design plays an important role when developing a Crew Cab. The finely designed partition wall separates the load and passenger compartment completely.
